Balfour Beatty Construction,
PJ Carey Contractors

Architect

David Clarke
Landscape Architect

Five Star Finish / Luxuriant groundcover

Within the redevelopment of the former Millennium Dome site in London AG's market leading products take pride of place at the new O2 Intercontinental Hotel.

AG's Plaza Paving provides luxuriant groundcover across the oval-shaped car park and surrounding pedestrian walkways surrounding the high rise hotel near the city's urban riverscape.

The Plaza Birkes (Graphite) and Pepper (Slate) paving beautifully complement the grey hues of the hotel façade with its heavy use of mirrored windows creating a cutting-edge 21st century ambience.

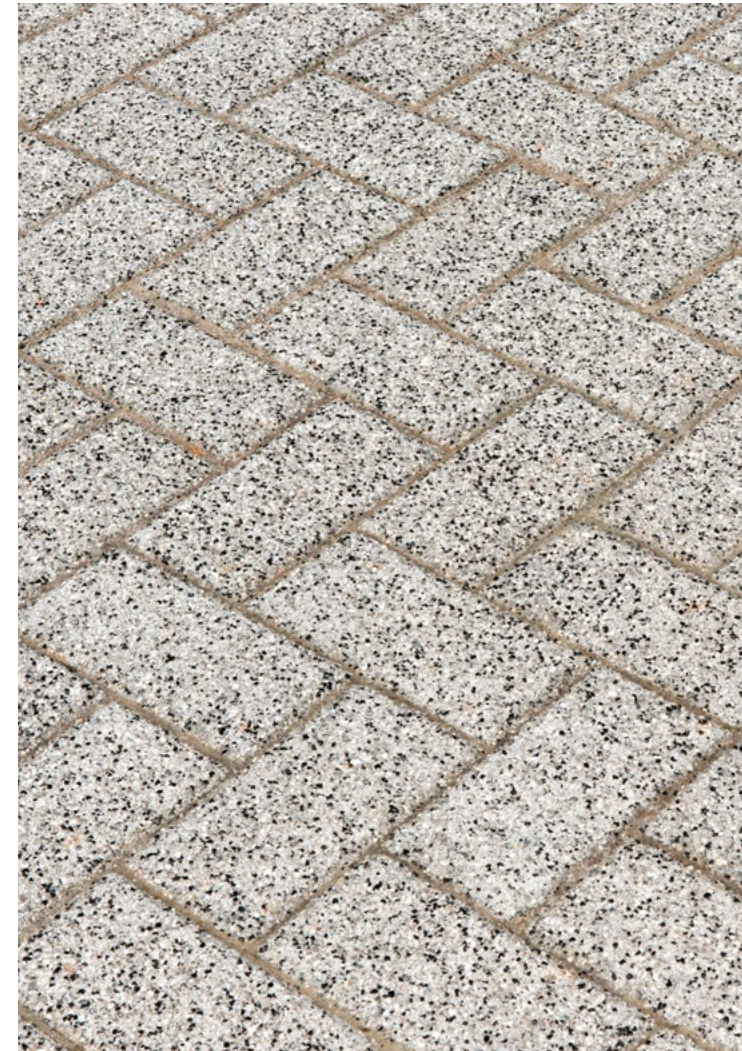

The contrasting AG products are placed to create borders between the car parking spaces in a subtle way across the expansive landscaped area. It is appealing to the eye and its manufacture offers a guarantee of robustness to endure traffic, with longevity built in.

Agora
BALLROOM

AG are one of the largest suppliers of hard landscaping and building products – but staying as a tightly-run family business, with a well-trained and highly-skilled workforce, has allowed us to maintain a firm focus on product innovation and responsive, customer-driven service.

Everyone within our organisation shares a common focus: to develop products and solutions that enable a built environment that's both aesthetically pleasing and highly functional. With a proud history of market and manufacturing firsts, our engineering, design and sales teams work in close partnership with architects, designers and contractors to develop products that continue to challenge and lead industry standards.
