Slip Resistance Paving / Heavily Used Areas

AG provided Plaza® paving for the globally renowned coffee shop outlet, Pret A Manger which opened a unit at the Nugent Shopping centre in Kent.

The Challenge

With the coffee shop attracting continuous footfall day after day, seven days a week, Macgregor Smith Architects was tasked with creating an attractive yet durable environment for customers to enjoy.

The Solution

AG Plaza® premium paving blocks were selected for the project due to their ability to fulfil both a practical and aesthetic remit. Plaza® features a finish which offers great slip resistance – an imperative for such a heavily used area where the public safety is of the upmost of importance. To achieve the desired look, three sizes and colours of Plaza® were chosen – Salt, Pepper and Birkes in the 200x100x80mm format – together they surpassed design objectives and created a dramatic visual effect.

AG are one of the largest suppliers of hard landscaping and building products – but staying as a tightly-run family business, with a well-trained and highly-skilled workforce, has allowed us to maintain a firm focus on product innovation and responsive, customer-driven service.

Everyone within our organisation shares a common focus: to develop products and solutions that enable a built environment that's both aesthetically pleasing and highly functional. With a proud history of market and manufacturing firsts, our engineering, design and sales teams work in close partnership with architects, designers and contractors to develop products that continue to challenge and lead industry standards.
